GRANT FUNDS NOW AVAILABLE

Dear Property Owner:

Our agency is a nonprofit organization that is undertaking a neighborhood revitalization project in a neighborhood that encompasses part of Lansdowne and part of Yeadon (see enclosed map). We have received some grant funds to help make improvements and repairs to the façade (exterior) of properties in our target area.

Please be advised that not everyone who applies will be eligible or approved. You must meet certain income guidelines and the work to be done must be on our approved list. Also, we are looking for projects that will make a big impact on the neighborhood. (See enclosed Program Guidelines for more details.) On a more positive note, we are making some changes to the program to make it easier to use: we will prepare the scope of work with you, we will take pictures, we will put the project out to bid, and we will pay the contractor directly. All you need to do right now is complete the application.

In addition to the Façade grant, you may be eligible for additional funds through Community Action Agency's Lead Paint Hazard Control Program (up to \$10,000) and/or their Weatherization Program. Once we review your application, we can give you a better idea of which program(s) you qualify for.

APPLICATIONS ARE DUE BY 3:00 PM, FRIDAY, JULY 14, 2017.

You can drop off or mail your Façade Program application to our office at 23 S. Lansdowne Ave., or you can scan everything and email it to me at jeanne@LansdownesFuture.org.

Sincerely,

Jeanne Ketcham
